

Winter Weather Briefing

For Late Saturday Night to Monday

For South Central Indiana and Central Kentucky

Prepared 11/15/2014 4:10 AM EST

National Weather Service – Louisville, Kentucky

NWSLouisville

National Weather Service Louisville

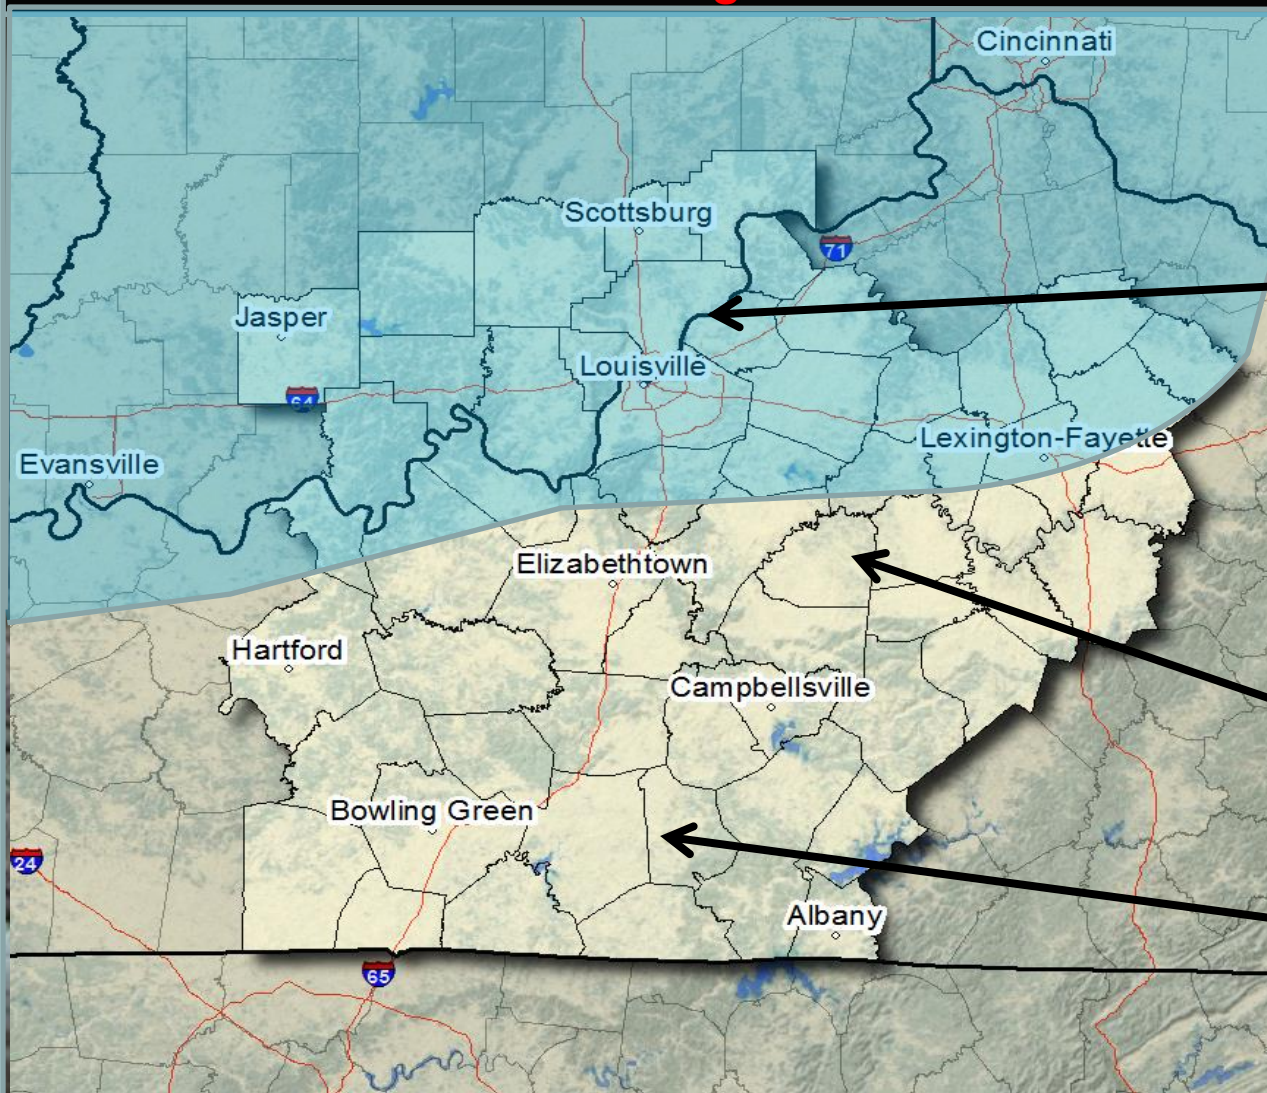

@NWSLouisville

System One, Saturday Night

Timing: 6PM EST to 1 AM EST

A few moderate bursts of snow may drop a few tenths of an inch of accumulation. This could result in **a few slick spots.**

Dry overnight

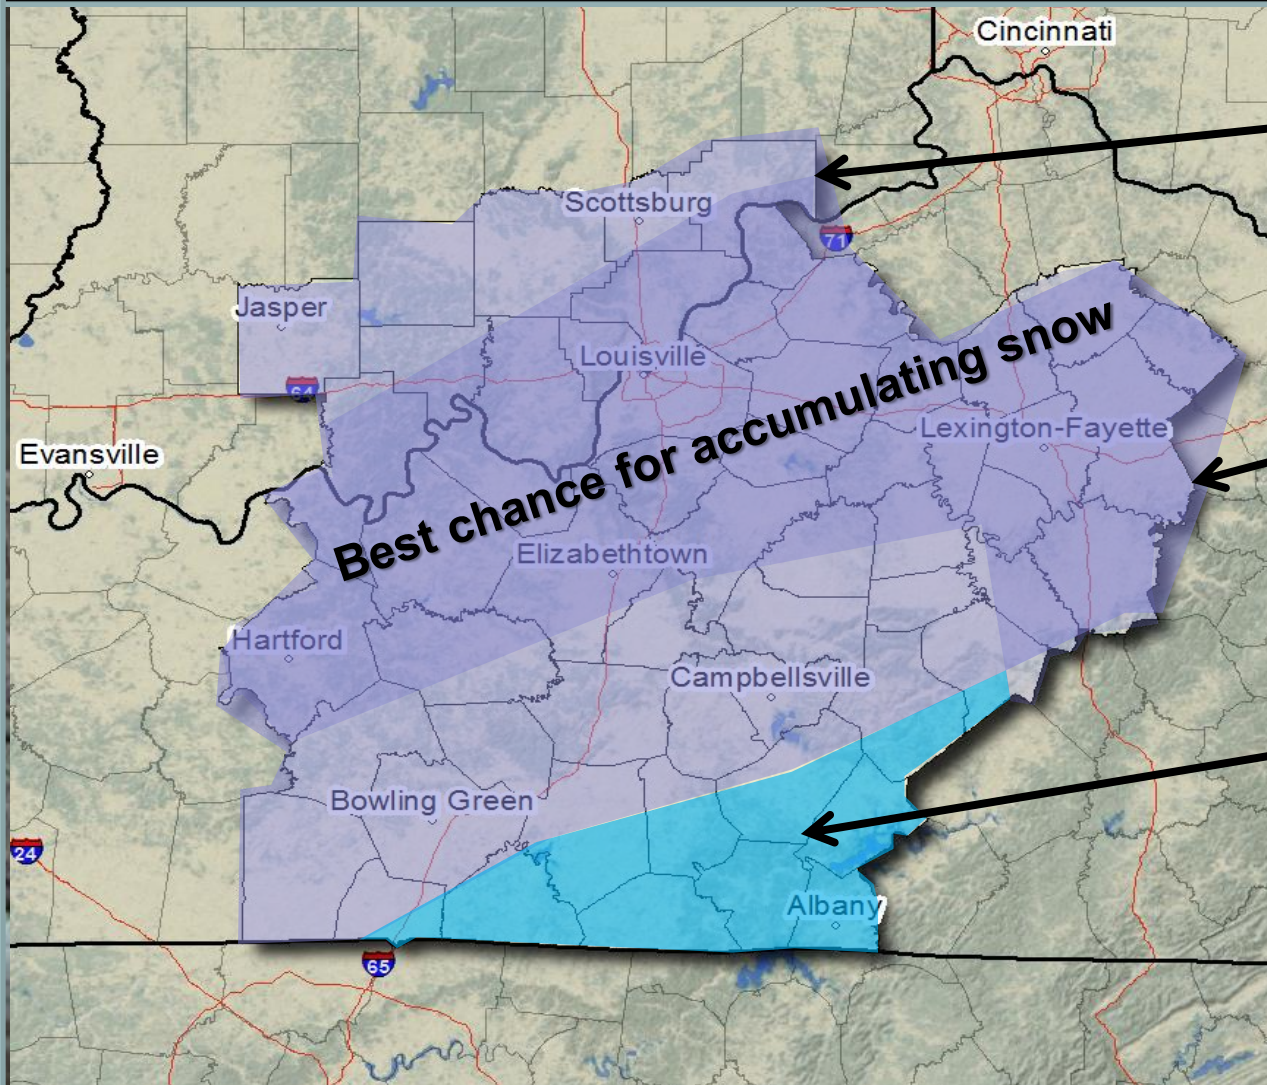

National Weather Service – Louisville, Kentucky

System Two, Sunday Night-Monday Morning

A chance for accumulations, possible impact on the Monday morning rush hour

Area most likely to see **negative impacts**. 1"-3" snow accumulations with locally higher amounts are possible. Stay tuned through the weekend for updates on storm track and forecast snowfall.

Rain will change over to light snow early Monday morning. Snow accumulations of around 1" are possible. Stay tuned for updates over the weekend.

National Weather Service – Louisville, Kentucky

Summary

- Two separate systems will bring a chance for winter weather
- The Saturday night system may result in a few slick spots Saturday evening into early Sunday morning.
- The Sunday night/Monday system may bring 1-3" of snow with locally higher amounts to the region
 - *The Monday morning commute may be affected.*
